MACMILLAN

A note to teachers, parents and children

Welcome to the *English World* Level 1 Grammar Practice Book.

In this book you will find a variety of activities which practise the grammar points in Pupil's Book 1 and Workbook 1. There are also activities which practise writing skills and phonics/pronunciation. These activities can be used in class or for homework.

There is a unit in the Grammar Practice Book for each unit in the Pupil's Book and the Workbook. There are three pages in each unit:

- **Page 1 of each unit** practises the **main grammar point** of the unit.
- **Page 2 of each unit** practises the **Grammar in conversation** point.
- **Page 3 of each unit** has a **Grammar Street** activity, which practises the grammar points from pages 1 and 2; and a **Writing skills** activity which practises the writing from the Workbook Writing skills page.

The **Review pages** practise the grammar from the previous three units. Each grammar activity in the Review units has a score out of 5. This gives a total score of 20. The children write their score for the Review pages in a box on the page. They can assess their level of achievement by reading the comments in the **Score Box**.

The phonics and spelling section of each unit in the Pupil's Book is practised at the end of this book.

When all the activities in each unit are complete, the Grammar Practice Book will be a useful reference and revision aid for the children. The series of Grammar Practice Books builds up into a complete record of the grammar in *English World*.

The children can keep their Grammar Practice Books and use them for reference in later levels of *English World*. In this way, they develop good study skills and make an important step to becoming independent learners.

English World

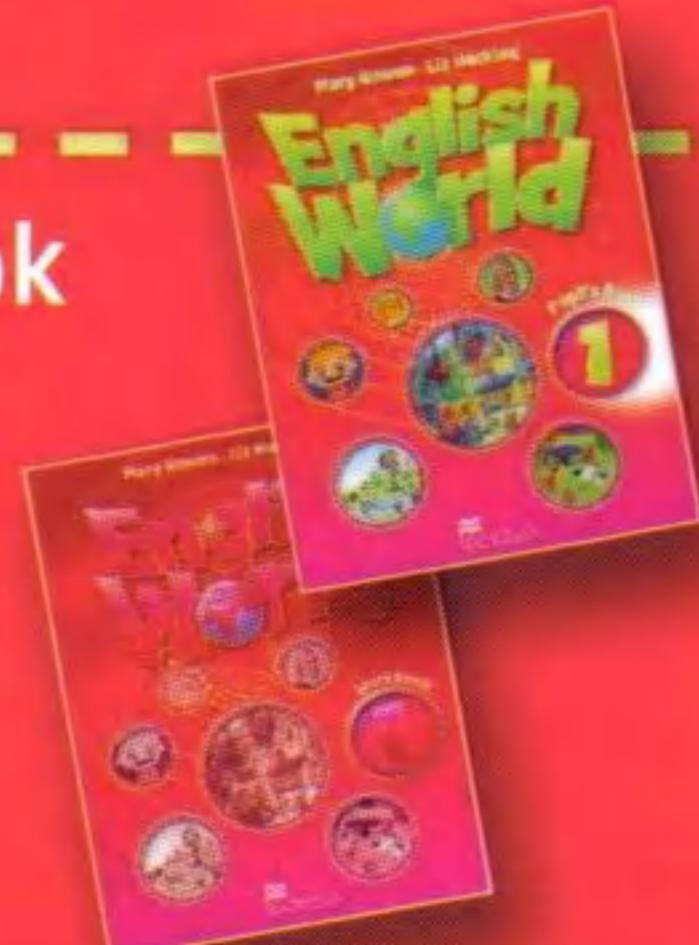

the adventure starts here!

English World is the first-ever integrated ten-level print and digital English course for primary and secondary schools. Written by the authors of the best-selling Way Ahead and Macmillan English, the course aims to give learners confidence in speaking, listening, reading and writing. Thorough grammar and skills work is applied in natural contexts in the real world through dialogues and cross-curricular material. Independent learning is promoted through portfolios, projects and the use of the dictionaries.

The visually stunning printed resources are complemented by electronic materials for use with an interactive whiteboard and videos of all dialogues using native-speaker students in context, together with a complete teacher training package with video masterclasses. Other features include a test builder, animated posters, interactive phonics activities and singalong versions of songs.

The adventure begins in Levels 1 and 2 of English World where children are introduced to Dan, Lily, Mr Jolly and a wonderful cast of colourful characters. Level 1 is for children who have had some exposure to English, but are just beginning to read and write.
